

# MILA

## Omega 3, 6, 9 (Plant Source) No Expiration Date

16 oz (454 grams) • \$55 (30 Day Supply) per bag

**Essential Fatty Acids** are Nature's Natural Pain Killers, i.e., people with clinically-deficient EFA levels feel pain more intensely, even if the sensation is mild or moderate. EFA (Omega 3, 6, & 9) are the nutrient tools the body uses to communicate assault (biochemical, bioelectrical or physical injury) to any area of the body (no matter what the source). Then regulates sensations (levels of pain) during the healing process (which occurs when the body currently has the nutrients or you are providing them, based on test results) OR without EFAs and other nutrients to heal, the area of the body degenerates in ongoing pain until death. The medical solution, **only since the early 1900s**, to the ongoing pain of decaying and dying cells and tissue, is drug pain killers that give temporary relief and accelerate this process.

**Mila** is our answer to the present and increasing worldwide decline of the fish population on our planet, due to the marketing of fish oils for Omega Essential Fatty Acids. As you know, Dr. Smith does her homework, so she has found one brand of Mila that meets her standards for healthy, safe and effective Mila (from harvest to distribution).

### Mila Benefits include:

Perfect Omega 6:Omega 3 ratio  
No risk of rancidity; Unlimited shelf life.  
No oxidation due to the high antioxidant content; ORAC\* value of over 1000 5g, Recognized as a food by the FDA.  
99% bioavailability  
Gluten---free, Sugar---free, and Trans fat---free  
All natural, not processed or altered in any way  
Easily incorporated into any food; can be cooked up to 500 degrees  
No limit on quantity that can be safely consumed  
Basically no taste or smell; no fishy smell or aftertaste  
Plant food; contains no animals products; Vegan food source  
Certified Badatz Kosher and Earth Kosher  
Raw Fiber in every serving  
Excellent Protein source, contains all Essential Amino Acids  
Excellent Phytonutrient source  
Contains many other vital nutrients like folate, calcium, magnesium, selenium and others  
Safe in pregnancy and nursing moms  
Grown Pesticide free,  
Non-GMO (Genetically Modified Organism)\*  
Every crop tested independently for nutrient content, quality and cleanliness;  
No heavy metal toxins  
Most nutrient dense food known  
No allergens, warnings, contraindications or limitations  
Safe for all ages/medical conditions (unless told to eliminate fiber from the diet)

---

\* **ORAC** means "Oxygen Radical Absorbance Capacity" –The antioxidant values of foods listed are expressed in ORAC.

\***GMO** A genetically modified organism (GMO) or genetically engineered organism (GEO) is an organism whose genetic material has been altered using genetic engineering techniques.
