Dear Dr. _____

Your patient has requested a Clinical Nutrition Analysis (or interpretation) of the Laboratory Report of their blood chemistries through **Advanced Clinical Nutrition**, Wichita Falls, Texas, and has given your name as the preferred physician for ordering blood tests.

A **Clinical Nutrition Blood Chemistry Analysis** of the following tests is provided for the purpose of designing a Clinical and/or Sports Nutrition Wellness Program for your patient.

The patient may forward the Laboratory Report for the following tests to our office or please faxed from your office to (940) 761-4405.

General or Metabolic Blood Chemistries

CBC with Differential

Lipid Profile (Total Cholesterol, Triglycerides, HDL, LDL, HDL/Chol. Ratio)

Thyroid Profile (T-3, T-4, T-7, and TSH)

Serum Magnesium

Serum Iron and Ferritin, if not included in your General Blood Chemistry Profile

For your convenience, a list of the individual blood tests being requested has been attached. Please note that for a Comprehensive Clinical Nutrition Analysis, it is very important that all of the attached blood tests are provided, even though some may not be routinely tested for the purpose of medical evaluation and diagnosis.

Thank you in advance for providing this service for your patient. We appreciate your assistance in your patient's overall health care. Please feel free to contact me, if you have any questions or when I may be of further service.

Warm Regards,

Dr. Donna F. Smith
